(54) Title: IMPROVEMENTS IN OR RELATING TO AN AIR-BAG ARRANGEMENT

(57) Abstract: An air-bag arrangement includes an air-bag (1) and a gas generator (6) to supply gas to inflate the air-bag. The gas generator is hingedly (10) connected to a support (4) and is hingedly movable between a closed position in which the gas generator (6) extends across and closes an aperture and an open position in which the gas generator (6) is retracted to permit the flow of gas from the air-bag. The gas generator is initially retained in position by a retainer (11) the retainer being actuatable, in response to a signal, to enable the gas generator (6) to move hingedly to the open position.

PCT/SE 03/00750

A. CLASSIFICATION OF SUBJECT MATTER

IPC7: B60R 21/28

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC7: B60R

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

SE,DK,FI,NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-INTERNAL, WPI DATA, PAJ

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

☐ Further documents are listed in the continuation of Box C.☒ See patent family annex.

* Special categories of cited documents:

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance: the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
